Solutions

IPS provides a quick response to your needs, unparalleled follow-up service and top-notch candidates to choose from. We offer:

#### **Temporary Employees**

A qualified temporary employee can be just what you need. Let a temporary relieve your office workload, fill in for absent employees or help keep your current employee daily workloads manageable. In this erratic job market, we realize how difficult it is to find qualified employees. Don't accept less than you deserve by hiring through websites or allowing a staffing agency to give you what they have instead of what you need.

#### **Temporary to Hire**

Try before you buy. Before going through the time and expense of adding new employees to your payroll, evaluate their job performance. IPS has top-notch temporary employees and has an exceptional track record in placing long-term, direct hire employees for our clients.

#### **Direct Hire**

IPS begins with a comprehensive search by locating individuals who are best suited to your specific needs. By carefully selecting from our comprehensive database of prescreened applicants, we identify candidates with experience in a variety of insurance-specific fields. This, coupled with more than 30 years' experience, allows IPS to meet the challenge of locating the most qualified individuals who understand the demands of this complex and changing industry.

For our current clients, you've seen our responsiveness in action. For those we haven't worked with yet, we look forward to proving ourselves to you by going the extra mile on your behalf.
